## Classroom Supply List for Miss Lori's Room 202

This list may seem a bit unconventional, but these are the supplies that this classroom will need. We use Velcro on a regular basis to make materials for the students to use in conversation, academics and social and vocational skills. Double sided tape is an invaluable tool during class time when we need to put something together quickly to help our students learn a skill or concept.

Supplies from each family for room 202:

- 1 box of Kleenex
- 2 rolls of paper towels
- 2 small packs of 5/8 inch Velcro coins (dots)
- 1 8 ounce bottle of Purrell Aloe hand sanitizer
- 1 large container Clorox wipes
- 1 roll double sided tape (brand does not matter as long as it is double sided)

I have plenty of typical school supplies and do not need more. I may ask for some items needed for science projects throughout the school year, but other than that, the supply list above should be all we need.

Thank you for your help,

Miss Lori
